

Voting Process

Voting process

Voting is done in two phases. The first phase is conducted via the Awards websites where the public can freely vote on those on nominees. This is then whittled down to the top ten.

The top ten are then profiled and submitted to the Lyceum who then vote in a secure online booth to select the eventual winner. The voting process will be overseen by an independent auditor to ensure the integrity of the vote.

All members of the Society (Lyceum) are required to vote ONCE in all SEVEN categories of the Awards.
