

Commemorative Albums

As part of commemorating the premiere Global Youth Awards, the Lyceum has commissioned a set music albums to be released as downloads only.

The Commemorative Albums set will feature several genres of contemporary music that will appeal to all ages and races.

Crucially though all music tracks will represent inspirational or uplifting themes and devoid of any offensive lyrics.

Contributing artists will provide original music either written specifically for the Awards or adapted for it. Although the selection of music will be open to all, it is envisaged that the commemorative albums will be an opportunity for many unknown artists to gain new audiences or broaden their appeal.

The sale of the albums will also represent a significant source of funds for the Awards and all other projects that the Lyceum will embark on.
